

General hygiene concept of the University Ulm

Based on the Corona-ArbSchV of the federal government and the CoronaVO Baden-Württemberg the following applies:

1. masks and distance rule

It is recommended to voluntarily wear a medical mask or an FFP2 mask indoors. If this is not possible, it is recommended that a distance of 1.5 m be observed.

2. ventilation according to user instructions

Please observe the room-specific recommendations for ventilation.

3. surface disinfection according to user instructions

Surfaces can be cleaned independently as required.

4. prohibition of access and participation

There is a restriction on access and participation of persons:

1. who are subjected to a segregation obligation in connection with the coronavirus,
2. who show acute cold symptoms.
